CAREER OBJECTIVE

Full-Stack Developer proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js) with expertise in JavaScript, HTML, and CSS. Skilled in front-end and back-end development, database management, and version control using Git/GitHub. Focused on problem-solving through Data Structures & Algorithms, object-oriented programming, and performance optimization. Committed to delivering scalable, responsive, and user-focused web applications using best development practices.

EDUCATION

Netaji Subhash Engineering College

Bachelor of Technology in Information Technology - CGPA - 7.95

Aug. 2021 – July 2025

Kolkata, West Bengal

PROJECTS

Review UR Code | *React.JS, Tailwind CSS, Express.js, Gemini API*

[GitHub](#)

- Developed a responsive code reviewer web app using **React.js** and **Tailwind CSS**, allowing users to input code and receive real-time AI-driven analysis and improvement suggestions.
- Integrated **Google's Gemini API** through an **Express.js** backend to provide context-aware code reviews, including tips to optimize performance, improve readability, and follow best practices.
- Focused on delivering a seamless developer experience with a clean UI and fast feedback loop, helping users not only identify issues but also **enhance and refactor their code effectively**.

Pod-Caster | *React.JS, Tailwind CSS, Mongo DB, Express.js*

[GitHub](#)

- Built a full-stack podcast platform using **MERN stack (MongoDB, Express.js, React.js, Node.js)**, enabling users to listen, create, and manage podcasts.
- Implemented **category-based search and filtering** to improve podcast discovery and personalized browsing.
- Added features for **user authentication, podcast uploads, and audio uploads** with a responsive and intuitive UI.
- Designed a **scalable backend architecture** with RESTful APIs and optimized database queries for efficient performance.

TaskiFy | *React.JS, Tailwind CSS, Mongo DB, Express.js*

[GitHub](#)

- Built a full-stack **task management app** using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** with a responsive and user-friendly interface.
- Implemented features for **creating, updating, and tracking tasks** across different stages (*Pending, In Progress, Completed*) with real-time updates.
- Designed a **scalable backend with RESTful APIs** and optimized MongoDB queries to ensure smooth task handling and performance.

TECHNICAL SKILLS

Programming/Languages: Java, HTML+CSS, JavaScript, SQL

Developer Tools: VS Code, Git, GitHub

Frameworks/Libraries: ReactJS, Tailwind CSS, ShadCN, ExpressJS

ACHIEVEMENTS

- Solved 300+ DSA questions across platform .
- Emerged as a winner in the Internal Hackathon(College level) held as part of the Smart India Hackathon 2023, demonstrating exceptional problem-solving skills and innovation.
- Enhanced skills through online learning: Earned certificates in multiple technical and soft skills courses on Udemy and Coursera throughout my B-Tech journey.
